

Ohio Airports' Partner for Success: The OAA Political Action Committee

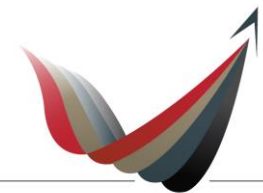

The Benefits of Having a Political Action Committee

The Ohio Aviation Association established a state-level Political Action Committee in early 2016. The OAA PAC has a separate Board of Directors and bylaws from the OAA. The OAA PAC helps advance our industry's needs around the state by supporting candidates for the Ohio General Assembly and statewide elected leaders.

If you are still wondering whether to support the OAA PAC, here are some **benefits** to having and supporting the PAC:

- [Provides another way to support airport and aviation legislative champions](#)
A legislative champion is valuable to you and the association, especially if he or she can continue in that role in your state assembly. Providing financial support through OAA PAC contributions helps keep your legislative champion fighting for your issues.
- [Gives members a way to participate in the political process](#)
People who contribute to the OAA PAC have made a political decision to get involved with the issues which airports care about the most. An active, involved membership is a key part of OAA's success. PAC contributors also have access to member-only events with special guests.
- [Increases effectiveness of our voice for aviation](#)
Individuals and organizations are limited on how much they can contribute to a political candidate. By supporting the OAA PAC, airport and aviation supporters will be able to increase contributions to candidates who support airport issues.
- [Raises the profile of the state association](#)
Legislators stand up and take notice when an association has a PAC. Besides the funding mechanism, the OAA PAC shows that we are committed to participating in the political process.
